BILLING & REVENUE OPERATIONS / AI FINOPS SYSTEMS / B2B CLIENT OPERATIONS

PROFILE

Operations and billing professional with B2B manufacturer-platform customer billing and CRM experience (2019-2023), U.S. medical insurance claims and receivables follow-up (2024-2025), and AI-assisted finance-system engineering. Combines invoice investigation, stakeholder coordination, Salesforce and payer operations with Stripe Billing, Chargebee, Safepay, SQL/Python and payment-exception automation work.

PROFESSIONAL EXPERIENCE

AI FINOPS SYSTEMS & PRODUCT OPERATIONS

2024-PRESENT

Selenephose / independent product portfolio · Remote

- **Billing integrations:** Built Stripe Billing and Chargebee invoice API readers with paginated retrieval, currency-aware normalization, outstanding-balance reporting and overdue-invoice exception detection.
- **Settlement controls:** Developed STACKWAR Safepay checkout and webhook flows, duplicate-event protection, refund-ledger controls and gross/refund/net verification.
- **Finance reporting and workflow QA:** Built an Excel/Sheets AR aging, payment-variance and MRR/ARR movement work sample; directed AI-assisted implementation, regression testing and release review.

MEDICAL INSURANCE / BILLING RESOLUTION SPECIALIST

2024-2025

NWCare · U.S. remote healthcare operations

- Used **Aetna payer portal** and **ModMed** for eligibility verification, claims-status investigation, medical billing follow-up and payer documentation across Medicare, Medicaid and commercial cases.
- Investigated denials, underpayments, eligibility mismatches and outstanding or disputed claims; tracked next actions, case histories and payer responses through follow-up workflows.

B2B MANUFACTURER PLATFORM BILLING & CRM

2019-2023

FourSource + subsequent CRM / digital operations work · Remote

- **Manufacturer invoicing:** Supported billing of manufacturer accounts for platform access, aligning invoices, account terms, billing questions and customer records across FourSource systems and Salesforce.
- **Collections and customer operations:** Followed up on outstanding manufacturer invoices, account discrepancies and client queries; coordinated with account teams on resolution and onboarding handoffs.
- **CRM and lifecycle reporting:** Maintained Salesforce, proprietary CRM and Mailchimp data for B2B leads, customer accounts, campaign communications, pipeline hygiene and reporting.

WORKSTATION EUROCOM Raptor X18 | RTX 5090 | 256 GB RAM | Arch Linux

SELECTED FINOPS & AI WORK

STACKWAR · PAYMENT OPERATIONS

Safepay checkout, signed-webhook validation, idempotent settlement, refund-ledger accounting and gross/refund/net checks.

ARCHEAGENT · STRIPE + CHARGEBEE

Implemented invoice API adapters, cursor/offset pagination, currency-wise receivables summaries and overdue / attempted-unpaid exception checks.

StatementForge

AI-assisted statement and financial-document workflow design, extraction/reconciliation checks, evidence trails and review coordination.

RoadLog Pro · NUR · Shorefront

Driver/fleet logging with Django/React and scoped access; interactive AI interface and context/memory UX; 2D maritime operations, berth and vessel workflows.

Arch Agent / AM

Local-first agent research: memory continuity, audited orchestration, tool access, planning and runtime behavior.

STACKWARS · EvidenceBound

AI-worker career/competition marketplace; evidence, approvals, replay and verification-driven workflow concepts.

PortFlow · Creatorform · Free Agent Exchange

Research-stage concepts spanning ship operations, creator-brand relationships and AI-agent commerce.

Dua Texas Publishings

Educational publishing workflow: 44-page learning sequence, layout, QA and print preparation.

TOOLS & DELIVERY STACK

BILLING, AR & CUSTOMER OPERATIONS

B2B manufacturer-platform invoicing, overdue account follow-up, billing exceptions, customer correspondence, payer claim investigations and resolution tracking.

REVENUE & PAYMENT SYSTEMS

Stripe Billing and Chargebee invoice API integration; Safepay hosted checkout, signed webhooks, refunds, idempotency, Salesforce and proprietary CRM.

FINANCE REPORTING & SPREADSHEETS

Excel / Google Sheets, XLOOKUP, INDEX/MATCH, pivot tables, formula-driven AR aging, reconciliation variances, payment-status checks and MRR/ARR bridge models; Python, SQL and PostgreSQL.

AI WORKFLOWS & AUTOMATION

AI Commander, SentinelX, Claude, MCP-connected agents, prompt-driven implementation, QA, evaluation and human review.

SOFTWARE & DEPLOYMENT

Python, Django, FastAPI, React, TypeScript, GitHub, GitLab, GitHub Actions, Docker, Railway, Vercel, Cloudflare and Arch Linux.

BUSINESS & PAYER SYSTEMS

Salesforce, FourSource CRM, Mailchimp, Aetna payer portal, ModMed; client onboarding, audit trails and documentation.

EDUCATION

Associate of Science, Chemistry
Lee College | Baytown, Texas

B.S. Computer Science | In progress
University of the People
